

**Thank you for your interest in the We The Curious
Funded School Visits Programme!**

Our vision is to make science something that everyone can be part of. We also know that school trips can sometimes seem like a challenge. We want to change that.

We The Curious is home to hundreds of interactive exhibits, plus workshops, shows and theme days covering a wealth of topics linked to the National Curriculum, and the UK's first digital 3D Planetarium!

We recognise the value of taking science outside the classroom to inspire young people and their teachers alike and, through our **Funded School Visits Programme**, we aim to support Bristol schools that would love to visit We The Curious but lack the financial means.

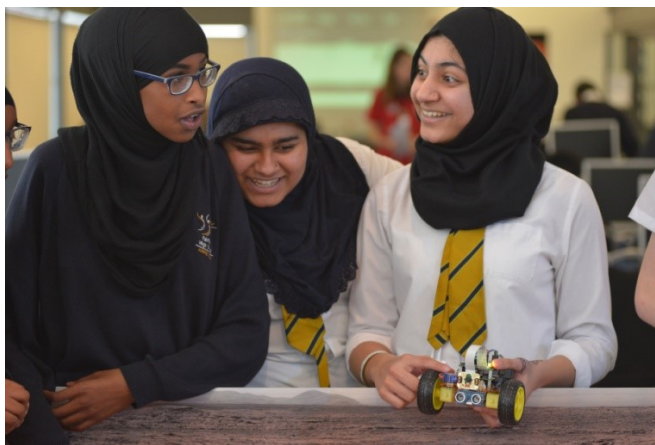

So if funding presents a significant barrier for your school, we'd like to hear from you. There are two rounds of applications, so apply by **1st October** or **1st February**. To apply for a Funded School Visit, simply download and complete the application form from our website.

Tell us how a visit to We The Curious could be of value to your students and staff, and how financial support from us could help. If visiting us here is an issue, we can even discuss the possibility of an outreach visit as an alternative.

If you have any questions, please do not hesitate to get in touch using the contact details below.

We look forward to hearing from you!
